PRESCRIPTION BENEFITS

Covered Medications

- Your coverage is based on a list of covered medications known as a formulary.
- A prescription drug formulary is a list of preferred drugs established to encourage the use of safe, effective generic and brand-name medications while helping to control prescription drug costs.
- Certain prescription drugs, such as those that have a direct generic or brand-name therapeutic equivalent medication available, may be excluded from coverage.
- The formulary list will be reviewed quarterly and is amended from time to time.

How It Works

- Providers will have electronic access to the formulary at the point of prescribing and will be able to prescribe covered medications based on this information.
- If there are documented medical reasons why you must take a medication that is not on the formulary, your provider can request a coverage review by calling **855.240.0536**.
- Log in to your Secure Enrollee Portal (SEP) at www.healthtrustnh.org to access the most up-to-date coverage and formulary information.
