

Spiral Earrings

Wear your creativity proudly!

Make zany earrings, pendants or keychains with seed beads and wire twisted into a spiral

Kit includes supplies for one pair of earrings.

Spiralized Beaded Earrings

Supplies:

Included:

- 200 seed beads, various colors
- Two (2) accent beads
- Two (2) lengths of wire, approximately eight inches long (8")
- Two (2) earring hooks, sometimes called French hooks or fish hooks

Not Included:

- Pliers
- Wire cutters (optional)

Instructions:

1. Select a length of wire. Using pliers, fold an end of the wire over a seed bead as in **Fig. 1** and crimp. This will prevent the other seed beads from falling off the wire.
2. String one hundred (100) beads onto the wire (**Fig. 2**).
3. Gently curl the beaded wire into a spiral (**Fig. 3**). Go slowly and allow the beads to move as you curl; the beads will need more space between them to round the curves.
4. Add one (1) accent bead to the wire (**Fig. 4**).
5. Using pliers, make a loop in the wire directly about the accent bead. Wrap the remaining wire around itself. Your result should resemble **Fig. 5**. Alternatively, use wire cutters to remove remaining wire.
6. Using pliers, open the earring hook's loop (**Fig. 6**).
7. Thread the earring pendant onto the earring hook. Using pliers, close the earring hook's loop. Your result will look like **Fig. 7**.
8. Repeat steps one through seven (1-7) for the second earring.
