

# Backpack Bling

Teen-To-Go

1

Gather your supplies: mini plastic animal toys, assortment of wooden beads, twine (12 in long), key ring, tiny eye screw, nail, hammer, and scissors

2

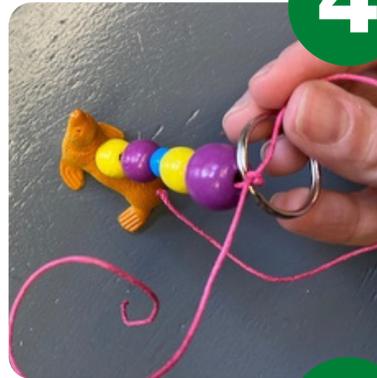

To attach an eye screw to the toy animal, Use the hammer and nail to make a beginner hole, then twist in the eye screw. Thread one end of the twine through the eye screw.

3

Gather the two ends of twine and even them out. Then thread both ends of twine through each bead.

4

Once the last bead is threaded, tie on the key ring with the twine. Tie a knot to secure.

5

Trim off the excess twine with scissors.

6

Use the key ring to attach to zippers on your backpack or other zippered bags.
