

Kawaii Sun Catcher

Teen-To-Go

1

Gather your supplies:
Design page, colored
pencils, Mason jar ring,
glue, Qtip, string,
scissors, cooking oil,
and paper towel

2

Color your chosen
design & use the jar
ring to trace a circle
around the colored in
image.

3

Cut out the circle, just
inside the line. Check
to make sure it fits
inside the ring. Trim if
needed.

4

Apply oil to the design
using a paper towel.
Completely cover, but
don't drench! Dab
excess oil up with a
paper towel.

5

After the design has
dried for 5 minutes,
use the Qtip to apply a
thin layer of glue
around the inside of
the ring.

6

Place the design
(colored side down)
into the ring. Wrap the
string around the ring
and tie a knot. Tie a
loop with the tails of
the string. Trim.
