

# BABY YODA FINGER PUPPET

## Supplies needed:

- 1 5x5 piece of green microfiber cloth
- 1 5x5 piece of grey microfiber cloth
- 2 small elastics
- 1 small binder clip
- 2 round felt cut outs for eyes
- low-temperature hot glue gun
- hot glue gun glue sticks

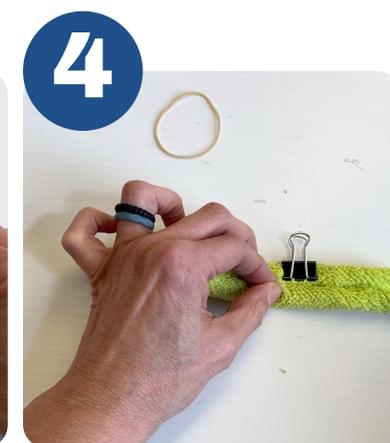

**Step 1:** Place the green microfiber cloth like a diamond on the table. The two hemmed edges should be on either side at the top of the diamond.

**Step 2:** Begin at the top point and roll the cloth down almost to the middle.

**Step 3:** Secure the roll with the binder clip.

**Step 4:** Roll the bottom point up and meet the binder clipped top roll.

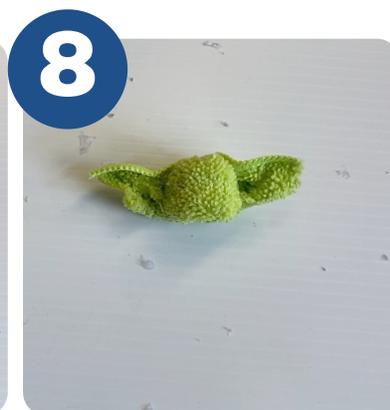

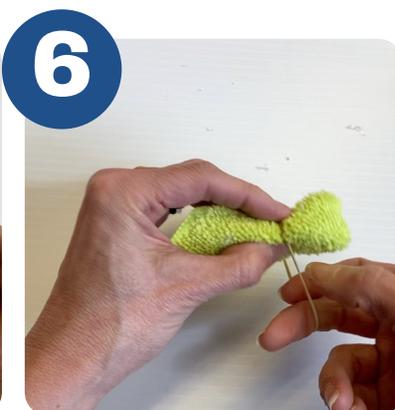

**Step 5:** Remove the binder clip & fold in half so the two rolled seams are touching each other.

**Step 6:** Wrap one elastic around the fold (a little less than half way) to make the head. Adjust as needed.

**Step 7:** Now you are ready to make the ears. Pull the two ears down to either side.

**Step 8:** Adjust the ears until you are happy with the look, then use a hot glue gun to secure the ears on the sides of the head.

**Watch the tutorial on YouTube at [www.youtube.com/goffstownlibrary](http://www.youtube.com/goffstownlibrary).**

**Step 9:** Put the head aside, and let's work on the body. Grab the gray microfiber cloth and put down down in front of you.

**Step 10:** Fold the bottom of the cloth up a little more than half way.

**Step 11:** Fold the top of the cloth down, overlapping the top of the bottom fold.

**Step 12:** Flip the cloth over so that the seam is now facing away from you.

12

**Step 13:** Fold the gray cloth into thirds.

**Step 14:** Wrap one elastic around the fold (a little less than half way) to make the cloak. Adjust as needed.

**Step 15:** Fold the top of the cloak down as a collar and to hide the elastic.

**Step 16:** Carefully hot glue any seams to keep the cloak closed. Leave the bottom open. This is for your finger to hold the puppet.

**Step 17:** Now it's time to attach the head. Place hot glue on the top (collar) of the cloak.

**Step 18:** Press the head onto the cloak/body. Let it dry for a moment.

**Step 19:** Using a small amount of hot glue, attach the felt eyes.

**Step 20:** Lots of steps, but your puppet is finally done!
