

## GOFFSTOWN SEWER SYSTEM

Areas of Goffstown serviced by the sewer system are indicated by this plot of sewer lines. These lines are drawn such that their width represents 300-feet at the scale of the map. This width is used because a structure within 150-feet of a sewer line is required to be connected to the system.

◆ Pump Station Location

A very detailed plot of each sewer line can be viewed at the town's GIS database, found at URL: <https://gishost.cdsmithGIS.com/goffstownNH>
